Dear Sponsor:

Your employees have little chance of a respectable retirement without you.

It is the truth. A 401(k) plan is the only retirement vehicle that is working. Employees cannot have a 401(k) if their employer does not sponsor it. An employer contribution to the plan makes a difference but even a plan without a match is valued for the automatic savings, tax features and investment access. A 401(k) plan is the best cost per employee benefit you can offer.

Problem is there is considerable out-of-pocket cost and workload to the typical 401(k) plan service package.

Welcome to EZ K Plan™. EZ K Plan™ was designed with the small employer in mind. Just follow the simple administrative steps. Employer plan service cost can be less than a personal cell phone bill.

EZ K Plan™ is not just for the employer without a plan. Take the EZ K Plan™ challenge. We will provide more and better personal service, lower cost to the employees and funds without proprietary restrictions.

Sincerely,

EZ K Plan™ Representative

PS: For employers just starting plans – find out how the 401(k) will cost you nothing in fees for the first 3 years!
